

# REHAM SHIPPING AGENCY LLC

**Setting new standards in premium logistics. Where exceptional service meets uncompromising excellence across global supply chains.**

# WHO WE ARE

## Trust Us with your Valuable Cargo

A Reham Shipping Agency LLC, part of the Reham Group, is a dynamic logistics and technology-driven support company based in Dubai. With a suite of services spanning air, sea, and overland freight, along with sophisticated warehouse systems and ecommerce fulfilment, Reham Shipping delivers efficient, intelligent, and cost-effective logistics solutions underpinned by automation technologies. Their core values are speed, accuracy, reliability, and productivity. ([rehamshipping.com](http://rehamshipping.com))

Our values of responsibility and care are reflected in the way we work every day. Whether it's with our clients, our team, or our community, we believe in creating impact that lasts. Success, in our view, is not only about meeting targets but also about leaving behind a legacy of reliability, shared progress, and meaningful connections.

# Technology Solutions

Cutting-edge digital solutions that power modern logistics and warehouse operations with unmatched efficiency and control.

Feature	Description
<b>Inventory Management</b>	Track stock in real-time with barcode, QR code, or RFID support. Never lose visibility of a single unit.
<b>Order Management</b>	Seamless order processing from inbound to outbound, with real-time order status and allocation logic.
<b>Inventory Reconciliation</b>	Automated cycle counts and discrepancy detection to ensure stock accuracy.
<b>Timestamps for Every Activity</b>	Audit trails for every pick, pack, and move—ensuring full accountability.
<b>Kitting &amp; De-Kitting</b>	Create product bundles or disassemble as needed, with full inventory traceability.
<b>Returns Management</b>	Simplify the return process with automated RMA flows and reintegration into stock.
<b>Suggested Putaway &amp; Picking</b>	AI-driven suggestions for optimized placement and retrieval paths.
<b>Order/Batch Picking</b>	Consolidated picking workflows for high-volume, multi-line orders.
<b>Dynamic Integrations</b>	Plug-and-play APIs for ERP, e-commerce, POS, and logistics systems.
<b>Interactive Dashboards &amp; Reports</b>	Real-time operational insights, automated alerts, and mailer-based reporting systems.
